the attention of institutional researchers toward the effects of actors and agency on institutions The concept of institutional entrepreneurship focuses attention on the manner in which interested actors work to influence their institutional contexts through such strategies as technical and

### **(Re)conceptualizing institutional change in sport ...**

Both the institutional work and institutional entrepreneurship concepts rely on an assumption that over time has become known as ‘embedded agency’ According to this assumption, agency is both constrained by and enabled by institutions, and agency is thus ‘placed in a double bind between actors and structure’ (Abelnour et al, 2017, p
